

Product Overview

The Pressac RJ45 Cat5e 6C Module is designed primarily for installation in floor box applications. With an industry leading low profile, it has been independently tested to all relevant EIA/TIA-568-B.2-1 specifications.

Features & Benefits

- 19mm low profile
- Cable strain relief feature
- 568B colour coding
- 110/LSA compatible IDC connectors
- Shuttered access to protect from dust ingress
- Manufactured from V0 flame retardant PVC
- Ideal for floor boxes
- Independently tested to EIA/TIA 568-B-2-1

Additional Information

The 6C module can also be snapped into the Pressac range of single, double and quad 6C faceplates although most applications will be for the population of metal floor boxes. Colour coded for 568B wiring, the terminating cable can be 'tied' to the module offering strain relief. As standard, the module is provided with a recessed area above the shuttered aperture for port identification using an industry standard labeling system or the stick on label provided.
