

Product Overview

The Pressac Cat6 RJ45 6CModule is designed and independently tested to TIA/EIA-568-B.2-1 specifications. Primarily used in floor box applications, it can also be snapped into the Pressac range of 6C single, double and quad faceplates.

Features & Benefits

- Fully component compliant
- Independently tested by Delta
- 568B colour coding
- 110/LSA compatible IDC connectors
- Shuttered access to protect from dust ingress
- Manufactured from V0 flame retardant PVC
- Protective labelling lens
- Mounts in floor box or 6C faceplate

Additional Information

Colour coded for 568B wiring, the terminating cable can be 'tied' to the module offering strain relief. As standard, the module is provided with a separate clip in label lens above the shuttered aperture for port identification using an industry standard labeling system or card label provided. Tested by Delta, the module is fully component compliant and is compatible with leading industry test equipment.
