**Product Overview**

Manufactured in white high gloss PVC material, the line jack 5 series range from Pressac can be either flush or surface mounted. (M3.5 fixing screws are supplied to surface mount to a Pressac moulded back box or to flush mount to a BS4662 back box). Termination is via 3 way BT 238A IDC connectors or screw terminals. Complete with dual fully shuttered BT 601A jack socket outlets – 2 electrical circuits connected in parallel, contained in a single housing.

**Pressac Part Number – Back Box – R20/7989**
