

## Product Overview

The Pressac Cat6A Keystone Module Termination tool makes the module termination easy and reliable. It has 3 main functions:

- 1) it is designed to strip back the insulation from the shielded cable without damaging the individual foil taped pairs,
- 2) once dressed in the stuffer cap, the spare excess wires are trimmed using the cutting blades.
- 3) the shielded lid to the keystone is firmly snapped shut ensuring correct, reliable termination.

## Features & Benefits

- Removes insulation off cable to be terminated
- Facilitates reliable pressing down of the stuffer cap
- Trims excessive cables in one operation
